EDUCATION

BMS Institute of Technology and Management

Bachelor of Engineering in Computer Science & Engineering

AUG 2023 – JUN 2027

CGPA: 8.92 (5th Sem)

Kendriya Vidyalaya AFS Barrackpore

Class XII PCM with Computer Science (CBSE)

JUN 2023

Percentage: 86%

Kendriya Vidyalaya AFS Barrackpore

Class X (CBSE)

AUG 2021

Percentage: 93.2%

PROJECTS

SafeSafar — Real-Time Trip Safety Monitoring System

- Developed a full-stack platform enabling users to track trips in real-time with geolocation and route visualization.
- Implemented a safety scoring system using AQI, weather alert and environmental data with color-coded alerts.
- Created emergency features including SOS triggers and periodic safety checks.
- Tech Stack: React, Node.js, Express, MongoDB, Python, Flask, Leaflet.
- Live: [SafeSafar](#)

Sportify-inspired Music Streaming UI

- Developed a responsive Spotify-inspired UI with a custom audio player supporting play/pause, seek, and track navigation, implemented using vanilla JavaScript and DOM manipulation.
- Implemented UI components using pure HTML, CSS, and JavaScript for lightweight performance.
- Live: [Sportify](#)

Online Voting System

- Developed a secure online voting platform using Flask with role-based authentication for admins and voters.
- Implemented one-vote-per-user verification using MySQL triggers, constraints, and a well-structured database schema.
- Built admin dashboard supporting candidate management, voter registration, and results monitoring.
- Designed user-friendly voting interface and integrated result visualization.
- Live : [Online Voting System](#)

SKILL SET

Programming

- **Languages:** C, C++, Python, Java, JavaScript
- **Web/Tools:** HTML, CSS, React, Node.js, Express, MongoDB, MySQL
- **Core CS Subjects:** DSA, DBMS, Operating Systems, OOP, Computer Networks, Software Engineering
- **Other Skills:** Problem-solving, Debugging
- **Competitive Programming:** LeetCode Rating 2180+ (Guardian Badge, Top 5%)

CERTIFICATIONS

• Google Cloud Computing Foundations — Google Cloud Skills Boost

Gained hands-on experience with Google Cloud Platform services including Compute Engine, Cloud Storage, IAM, VPC networking, load balancing, BigQuery, and cloud security fundamentals through practical labs and cloud-based deployments.

• Introduction to Big Data: Hadoop and Spark Developer – Simplilearn

Covered fundamentals of Big Data ecosystems, HDFS architecture, MapReduce programming model, and Apache Spark for large-scale data processing and analytics.

ACHIEVEMENTS

- LeetCode Guardian Badge — Contest Rating: 2180+.
- Consistent top performer in coding contests and CTF events at the college level.
